

Fardin Huq

About Me

As a Computer Science graduate from BRAC University, I actively seek a job that aligns with my major and passion. I have a keen interest in Quality Assurance. Also, I am involved in research projects in the field of Human-Computer Interaction (HCI). However I have learned a lot in my internship phase as a project coordinator. Therefore, I'm highly interested in this type of position as I have my expertise here. My eagerness for continuous learning, possessing strong problem-solving skills and a proven ability to thrive in team environments, I am poised to contribute effectively to projects that demand innovation and perseverance. I am eager to secure a job that fuels my growth and allows me to contribute meaningfully to cutting-edge initiatives.

Dear Hiring Manager,

I am writing to express my strong interest in the job opportunity at your esteemed software company. With a solid foundation in Computer Science from BRAC University, I am eager to leverage my skills and experiences to contribute to your team's success in Quality Assurance.

I recently completed an internship as a Project Coordinator with the gaming team at "Battery Low Interactive" and joined there as **Jr. Project Coordinator**, where I honed my skills in project management, manual testing and collaboration. Additionally, I have completed an online course on Quality Assurance from Udemy, which has equipped me with essential testing principles and methodologies. Currently, I am expanding my expertise in Automation, which I believe is crucial for enhancing efficiency in the QA process.

This experience presents a significant opportunity for me to gain practical insights into how QA operates within the software industry. I am highly motivated to upgrade my skills and learn from experienced professionals while contributing to your projects. My goal is to build a successful career in Quality Assurance, and I am enthusiastic about the possibility of doing so within your innovative team.

I look forward to the opportunity to discuss how my background and aspirations align with your company's vision. Thank you for considering my application.

Sincerely,
Fardin Huq
